### **CHAIRMAN'S STATEMENT**

In my comments to the Annual General Meeting on 14 March 2017, I reported that the Group had established itself on a new trading level and that this was being sustained with excellent levels of orders and sales. I am delighted to report that this remains the case.

Order entry increased 7.7% to a new record of £14.85m (2016: £13.78m) and sales increased 3.1% to £10.81m, also a record (2016: £10.48m). Despite the previously reported lower margin due to a change of product mix (higher proportion of project work, reduced aerospace & defence activity), operating profit before exceptional items exceeded our internal forecasts at £772,000 (2016: £782,000). The period includes a net exceptional gain of £226,000 comprising a property disposal gain on the sale of our former lighting factory in Yorkshire of £341,000 (2016: £14,000) less £115,000 of relocation and other nonrecurring costs. Profit before tax amounted to £976,000 (2016: £782,000) and diluted earnings per share were 6.81p (2016: 5.34p).

Electro-mechanical, and, in particular, Transport+, performed well during the period. Lighting suffered the failure of a large oil and gas customer and relocated its factory during the first half, but still performed well. Engineered component distribution faced reduced demand from the aerospace and defence sector and some delayed projects in the rail sector, but delivered a satisfactory result.

The order book at the end of the period was unchanged at £22m (2016: £22m). There are a number of project orders in the pipe-line for which we have been selected but which remain un-entered because we have not yet received confirmed delivery schedules: these amount to approximately £4.6m (2016: £4.4m). Interest in our LED lighting, ethernet backbone, USB outlet charging technology and Transport+ remains strong: our efforts in export markets will continue.

With the relocation of our lighting activity in March, the Group has completed the reorganisation of its two manufacturing operations (that for electro-mechanical was completed in 2015). Substantial investments in new buildings and plant have been made, in large part funded from the sale of former properties, which provide the Group with expanded capacity, improved productivity and excellent facilities for the future.

The loss of a working majority for the Government, coupled with the Brexit negotiations may prolong a period of uncertainty. However we trust that the Government will continue with its investment in the rail sector and that the Group will continue to enjoy success in exports to Europe, the Middle East and Asia.

Following the significant investment in facilities and a working capital build to fund growth over the year, gearing amounted to 31.6% as compared to 29.2% at the start of the financial year. Cash flow is expected to be increasingly positive through the second half and beyond.

We are continuing to follow a progressive dividend policy: the interim dividend will be increased by 5.0% to 1.05p (2016: 1.00p) which will be paid on 22 September 2017 to those shareholders registered at the close of business on 1 September 2017.

We expect good progress in orders and sales through the remainder of this year and the current order book underpins the situation for the medium term. The future looks encouraging.

## **NOTES**

#### 1 - BASIS OF PREPARATION

These interim consolidated financial statements are for the six months ended 31 March 2017. They do not include all of the information required for full annual financial statements, and should be read in conjunction with the consolidated financial statements of the Group for the year ended 30 September 2016.

They have been prepared in accordance with International Financial Reporting Standards as adopted by the EU and applicable law (IFRS) and in accordance with the provisions of the Companies Act 2006 applicable to companies applying IFRS. These financial statements have been prepared under the historical cost convention with the exception of certain items which are measured at fair value.

These consolidated interim financial statements have been prepared in accordance with the accounting policies adopted in the last annual financial statements for the year to 30 September 2016. The accounting policies have been applied consistently throughout the Group for the purposes of preparation of these interim financial statements and are expected to be followed throughout the year ended 30 September 2017.
