LPA GROUP PLC

Half-Yearly Report for the six months ended 31 March 2018

LPA Group PLC ("LPA" or the "Group"), the high reliability LED lighting and electro-mechanical system manufacturer and distributor, announces a strong performance for the six months to 31 March 2018, £1.8m of LED Lighting and power socket contracts from a new customer and board reorganisation.

KEY POINTS

- Revenue increased 28.9% to £13.93m (2017: £10.81m)
- Operating profit before exceptional items increased 45.4% to £1.122m (2017: £0.77m).
- Exceptional costs £111,000 (2017: £115,000 costs less £341,000 of property gain; net £226,000 gain)
- Profit before tax increased 1.1% to £987,000 (2016: £976,000)
- Diluted earnings per share decreased 0.30p to 6.51p (2017: 6.81p) due to increased profits chargeable to tax
- Interim dividend increased 0.05p to 1.10p (2017: 1.05p)
- Order entry decreased 43.4% to £8.40m (2017: £14.85m)
- Order book stands at £16m (2017: £22m)
- Gearing remains unchanged at 31.2% (2017: 31.6%) despite significant increases in working capital and plant and equipment

Michael Rusch, Chairman, comments:

"In my comments at the Annual General Meeting, I reported that output was at record levels and that this had been sustained during the first half. I am pleased to report that operating profits have also been at record levels and that this performance is continuing during the third quarter and should result in an outstanding result for the year. All parts of the Group are performing well.

However, as previously reported, the medium term maybe more challenging. Order entry in Electro-Mechanical and to a lesser extent in LED Lighting has not kept pace with sales and the Group order book has declined. Successive changes in Government procurement policy have impacted domestic supply chains for both new and refurbished trains and there is increased competition in our Asian markets. Nevertheless, we are rising to this challenge and have been selected for £1.8m of new LED Lighting and power socket export contracts for trains being imported to the UK, for delivery commencing in the next financial year.

Following the appointment of Chris Buckenham as Chief Financial Officer and Company Secretary in March 2018, we are continuing our board reorganisation. Paul Curtis, Managing Director of LPA Channel Electric Equipment Limited ("LPA Channel"), our highly successful distribution business is appointed Chief Operating Officer with effect from 1st October 2018, subject to standard due diligence. Paul was apprenticed at LPA Channel, achieved an MBA and had a successful spell as Sales and Marketing Director of LPA Connection Systems before returning to LPA Channel as Managing Director. At the same time, Peter Pollock, our Chief Executive will become Chairman in succession to me, while I become Group President, remaining a major shareholder and non-executive director. Len Porter remains Senior Non-Executive Director. Once these board appointments have bedded in, we expect to promote Paul to Chief Executive Officer and to appoint a further non-executive director. We shall be adopting the QCA Corporate Governance Code and a road map to compliance.

We have committed a further £1m to capital expenditure as a measure of our confidence in the future and we are increasing the interim dividend by 0.05p to 1.10p."

CHAIRMAN'S STATEMENT

In my comments to the Annual General Meeting, I reported that output was at record levels and that this had been sustained during the first half. I am pleased to report that operating profits have also been at record levels and that this performance is continuing during the third quarter and should result in an outstanding result for the year.

During the first half, Sales increased 29% to a record £13.9m (2017: £10.8m) reflecting the exceptionally strong order book at the start of the year and Operating Profit increased 45% to £1.1m, also a new record, (2017: £0.8m). Exceptional costs amounted to £0.1m (2017: Exceptional gain £0.2m). Profit before tax amounted to £0.99m (2017 £0.98m) and diluted earnings per share were 6.51p (2018: 6.81p). The dividend is increased by 0.05p to 1.10p. All parts of the Group are performing well.

However, as previously indicated, the medium term maybe more challenging. Order entry in Electro-Mechanical, and to a lesser extent in LED Lighting, has not kept pace with sales and while Distribution is doing well, the Group order book has declined. Government procurement policy has changed impacting domestic supply chains for both new and refurbished trains. The "long term through life" cost approach used on Cross Rail and London Overground, which favoured our reliable, long lived sustainable products has changed to one requiring only support for the franchise period, typically seven years. In addition, the procurement of 7000 new trains, significantly more than the running annual average of around 700 trains, has exceeded domestic capacity to supply, necessitating import from overseas train builders who are not yet existing customers, presenting us with the challenge of displacing existing suppliers to achieve orders.

The flood of new trains has meant the early retirement of some existing trains which would otherwise have required refurbishment and upgrade and provided us with more routine orders. This has particularly impacted Transport+. Some of our export markets, particularly Japan have suffered from increased competition from China and Korea in their export markets and this has presented us with additional challenges.

However, this scenario had been identified for some time and the Group has acted to mitigate it. We have pursued other export opportunities created by imported trains and have won £1.8m of orders for LED Lighting and power sockets from a new entrant to the UK market for delivery in the next financial year. We have identified other similar opportunities which we are pursuing. We have invested in new products development and in opening new markets.

We are investing £1m in processes and automation to reduce manufacturing costs.

We are continuing to follow a progressive dividend policy: the interim dividend will be increased by 0.05p to 1.10p (2017: 1.05p) which will be paid on 28 September 2018 to those shareholders registered at the close of business on 7 September 2018.

Following the appointment of Chris Buckenham as Chief Financial Officer and Company Secretary in March 2018, we are continuing our board reorganisation. Paul Curtis, Managing Director of LPA Channel Electric Equipment Limited, our highly successful distribution business is appointed Chief Operating Officer with effect from 1st October 2018. Paul was apprenticed at LPA Channel achieved an MBA and had a successful spell as Sales and Marketing Director of LPA Connection Systems before returning to LPA Channel as Managing Director. At the same time, Peter Pollock, our Chief Executive will become Chairman in succession to me, while I become Group President, remaining a major shareholder and Non-Executive Director. Len Porter remains Senior Non-Executive Director. Once these board appointments have bedded in, we expect to promote Paul to Chief Executive Officer and to appoint a further non-executive director.

We shall be adopting the QCA Corporate Governance Code and a road map to full compliance.

As previously reported the levels of sales and profits in the current year are exceptional and may be under pressure next year, but the funnel of opportunities, which leads to the pipeline of orders and order entry, is very encouraging. The Group is in robust shape and we look forward to the future with great confidence.

NOTES

1 - BASIS OF PREPARATION

These interim consolidated financial statements are for the six months ended 31 March 2018. They do not include all of the information required for full annual financial statements and should be read in conjunction with the consolidated financial statements of the Group, for the year ended 30 September 2017.

They have been prepared in accordance with International Financial Reporting Standards as adopted by the EU and applicable law (IFRS) and in accordance with the provisions of the Companies Act 2006 applicable to companies applying IFRS. These financial statements have been prepared under the historical cost convention with the exception of certain items which are measured at fair value.

These consolidated interim financial statements have been prepared in accordance with the accounting policies adopted in the last annual financial statements for the year to 30 September 2017. The accounting policies have been applied consistently throughout the Group for the purposes of preparation of these interim financial statements and are expected to be followed throughout the year ending 30 September 2018.
